HOLDRIDGE'S EVERGREENS

Pyramidal
Arborvitae

At our garden center, we will have thousands of evergreens all dug fresh this spring, either from our own nursery or other local farms. These trees are all dug by experienced workmen, the balls are tied tightly and then we keep the trees under our shaded lath house under ideal conditions.

Spreading Yew

Our trees will be ready for your inspection and immediate purchase. Before you buy anywhere, look over our

stock. Compare quality and prices with anyone but be sure you plant only locally grown stock for best results.

Listed below are a few of the most widely used varieties.

Golden Plumosa—12 to 15 inches tall—L	}	\$2.00
Globe Arbor Vitae—10 to 12 inches tall—L		
Laurel—2 foot spread—M		
Irish Juniper—24 inches tall—T	}	\$2.50
Biota Aurea Nana—12 to 15 inches—L		
Greek Juniper—15 to 18 inches—M		
Globe Arbor Vitae—12 to 15 inches—L	}	\$3.00
Ilex Crenata—L—or Latifolia—M—15 to 18 inches		
Pfitzer Juniper—15 to 18 inches—L		
Andromeda—12 to 15 inches—M to T	}	\$3.00
Dark American Arbor Vitae—3 feet—T		
Hetzi Spreading Juniper—L—(blue Pfitzer)		
Hemlock—15 to 18 inches—M or T	}	\$3.50

Would you like to have us plan and plant your home for you? See Page 5.

SOIL TESTING SERVICE

Now Available

Bring in a soil sample (a mixture from three or more places in your plot). Report what you wish to grow in the area. Allow 1 week for tests and recommendations. Charge per sample—\$1.00.

COME IN AND BROWSE AROUND

We extend this invitation to you to come in and see the wide variety of nursery stock and garden supplies which we carry in stock. If you are interested in gardening, you will want to spend a little while looking around our garden center.

Stop in and visit us this year. We are open seven days weekly until 6:00 P.M.

AZALEAS

We will have over 2000 azaleas available this spring. Our largest shipments will arrive here about May 1st in bud. All azaleas bought this spring should bloom well this year.

Varieties and sizes available:

HINODEGIRI—the hardiest of the real red varieties—8 to 10 inch spread at \$2.00; and large 15 to 18-inch spread at	\$3.00
DELAWARE VALLEY WHITE—8 to 10 inch spread	\$2.00
AMOENA—purplish pink flowers—8 to 10 inch spread	\$2.00

WEeping WHITE DOGWOOD—4-5 ft.	\$ 6.00
DOUBLE WHITE DOGWOOD—3-4 ft.	\$ 6.00
MAGNOLIA—red—15 to 18 inches	\$ 2.75

BUSINESS HOURS

Our nursery is now open six days a week from 8:00 A.M. until 6:00 P.M.; Sundays, 9:00 A.M. until 6:00 P.M. During April and May, only, we stay open evenings until 8:00 P.M.

PRICES

All prices of nursery stock and garden supplies quoted here are subject to the Connecticut Sales Tax when it applies. All prices are subject to change if necessary to meet higher costs.

LANDSCAPE DEPARTMENT

The landscape department of the Holdridge Farm Nursery has now completed its second year. This department specializes in the planning and planting of evergreens, flowering shrubs and trees at homes and business establishments.

This department is in charge of Phil Barnett, a graduate of the University of Connecticut where he majored in Landscape Design. Because of the increasing calls for this type of service, we also secured the services of Walter Congdon who is now designing and selling for us in this area. Both of these men can do a fine job for you.

At your request, either Phil or Walt will be glad to call at your home, suggest the varieties of evergreens and trees which will give lasting beauty to your home—types which will continue to increase in beauty and value as the years pass. They will be able to quote you prices on the stock planted at your home and guaranteed.

The charge for the planning and planting service we offer is very reasonable and is figured as follows:

1. Price of stock planted
2. Planning and planting charge at \$1.00 per tree
3. Guarantee at 10% of the bill.

As our Landscape Department can do only a limited number of planting jobs during the season, we suggest you get in touch with us as soon as possible—talk with Mr. Barnett as to what your needs are and place a definite order. Planting jobs will be done in the same sequence as definite orders are received and we may not be able to plant late orders until late in the season. We are not equipped to grade and plant lawns.

May we hear from you soon? The phone at the Nursery is INgersoll 4-7020 and Mr. Barnett's home phone is Mystic Division—JEfferson 6-9714.

Mr. Congdon's home phone is Norwich TUrner 9-6272.

LOCATION

The Holdridge Farm Nursery is located on Route 27 in the town of Ledyard, about 5 miles from Norwich and about 12 miles from New London.

From Norwich, take Route 2 (the Westerly Road) for about three miles—turn right onto first state highway, following Ledyard signs—drive about 1 mile and bear left onto Route 27 and drive 2 miles.

From New Haven and New London—cross the Groton-New London bridge and follow Route 95 for about 5 miles — turn left and follow Route 27 (Col. Ledyard Highway)—for about 6 miles. (Two miles past Ledyard Center.)

From Rhode Island points — Go to the Rotary intersection of Route 95 and Route 2 — follow Route 95 towards New London about 7 miles — then turn right onto Col. Ledyard Highway (Route 27). — We are about 6 miles from Route 95. (Two miles past Ledyard Center.)

Located on the Big Hill.

Flowering Shrubs

We will start the season with a good supply of the following flowering shrubs. They will be potted in tar paper pots which should be removed before planting. Most shrubs are from 2 to 3 feet tall.

- ALMOND—small pink flowers—early.
- ALTHEA—double rose red, double rose violet, double white, double white with pink center—late summer.
- BLUE HYDRANGEA—Nikko—a new variety—\$1.50.
- BLUE MIST—light blue flower.
- BUDDLEI—late summer blooms—red or white.
- *CORALBERRY—pink flower—red berries late fall.
- *COTONEASTER—Horizontalis—very low growing—red berries—fall—\$1.50
- DWARF DEUTZIA (Gracilis)—white—early summer.
- DEUTZIA—Lemoine—Taller growing white.
- EUONYMOUS—Alatus (Firebush or Wingbark) bright red leaves in fall.
- FORSYTHIA—Lynwood Gold—yellow bells in spring.
- HANSON'S BUSH CHERRY—fruit, flowers.
- HYDRANGEA A. G.—white snowball type flowers in summer.
- HYDRANGEA P. G.—white flowers with pinkish tinge in fall.
- HYDRANGEA—Domotei—pink—\$1.50
- HYPERNICUM—Hidcote—yellow summer flower.
- HYBRID LILACS—double white, blue, purple, lilac red, pink—\$1.50.
- LILACS, common—white and purple—will make heavy clumps.
- MOCK ORANGE (Philadelphus)—double, very sweet.
- POTENTILLA—Gold Drop—nice yellow flowers.
- *PYRACANTHA—beautiful orange berries—2-3 ft—\$2.50.
- *JAPANESE FLOWERING QUINCE—red flowers.
- ROSA RUGOSA—for beach plantings.
- SMOKE TREE—purplish bloom—\$1.50.
- *SNOWBERRY—pink flowers—white berry.
- SPIREA VAN HOUTTEI—Bridal Wreath—small white flowers—early.
- SPIREA FROBELLII—pink—summer flowers.
- SWEET SHRUB—chocolate flowers—spicy fragrance.
- *VIBURNUM CARLESI—sweet pink snowballs, B&B—\$3.50.
- WEIGELIA—red, pink—bell shaped flowers—early spring.

Price: Each \$1.00, unless otherwise marked.

* Denotes berry-bearing shrubs liked by many birds.

SHIPPING

Please call for your order whenever possible. When orders must be shipped, please add 20% for packaging and postage.

Please give instructions in your order how we should ship. If no instructions are given, we will ship as is best in our judgment.

We will ship as near as possible to the date which you ask but can not guarantee shipment on exact dates requested because of weather and other conditions beyond our control.

If no date is given, we will use our judgment as to the best time to ship your particular order to the area in which you live.

English Walnut—3-4 feet tall	\$2.25
Hazelnut or Filbert—18 to 24 inches tall	\$1.00

OUR GUARANTEE

We guarantee to furnish stock in good condition, up to grade and specifications. If your mail order arrives in damaged condition, report to us immediately. We will adjust complaint or refund your money.

We cannot guarantee livability after stock arrives on your place as so many factors may be the cause. We will, upon proper proof, replace free all trees, etc., which may prove untrue to name or refund the price paid but we will give no further warranty.

We do not guarantee balled and burlapped evergreens.

Our nursery is inspected yearly by an authorized State Inspector and a copy of our certificate accompanies each shipment.

Everblooming **ROSES**

2 YEAR FIELD GROWN

There is no other flower which will respond so well to extra care as the rose. We carry at our garden center a full line of needs for the rose fancier such as: peat moss, pulverized manures, rose fertilizers, rose dusts and sprayers and dusters for every sized rose garden.

CLIMBING ROSES — 90c

Climbing roses throw blooms only from the one year wood, and therefore will not bloom in any quantity during the first year. Climbing roses are very hardy and, once started, will last for many years.

Improved Blaze—everblooming red	Cli. Mrs. DuPont—yellow
Cli. Caledonia—white	New Dawn—everblooming pink
Cli. Golden Charm—golden	Paul's Scarlet—red
Cli. Talisman—two-tone	

PATENTED CLIMBERS

DOCTOR J. H. NICOLAS—deep pink	2.00
GOLDEN SHOWERS—daffodil yellow	2.75

FLORIBUNDA ROSES

Floribunda roses grow from 3 to 4 feet tall, about the same height as the tea roses but blooms are all in clusters. As a rule, the stems of floribundas are shorter than tea roses, and so not as good for cutting but the masses of bloom make them excellent for effect in your garden. All will bloom this year.

FLORIBUNDAS

AMY—satin pink	\$2.00	JIMINY CRICKET — coral

 Price..... 10 for \$1.00; 25 for \$2.00; 100 for \$7.50

FRUIT TREES

We can offer this year a nice variety of fruit trees grown for us by one of the largest nurseries in the country. All are of top quality and are graded strictly to size.

Our low overhead on our farm enables us to sell these trees at a much lower price than that quoted by most dealers. We hope that you will compare sizes and prices with other concerns and that you will come and see the trees here at our farm. These trees will be ready in our sales cellar by March 15 or before.

Each year we are sold out of some varieties early. To be sure of varieties wanted, order now and they will be saved for you.

It is possible for us to ship by parcel post, up to 10 fruit trees, by pruning to meet postal regulations. The charge for wrapping and postage is 20% of cost of trees but not less than 50c for an order. Large orders will be shipped by Railway Express or will be held for you in our storage. No orders will be held after May 1 unless paid for in full.

We advise that all fruit trees be planted as early as possible in the spring.

ONLY J. H. HALE REQUIRES CROSS-POLLINATION

All Peaches listed above are freestone.

PEACH TREES — 1 YEAR

Champion—early white
Jerseyland—early August
Golden Jubilee—very early, yellow, mid-August

Red Haven—excellent quality, mid-August
Early Elberta—similar to Elberta, but earlier, late August
Fowler—large yellow, late August
Hale Haven—high quality yellow, good shipper, early September
Belle of Georgia—large white, early September
J. H. Hale—very large yellow, mid-September
Elberta—standard canning peach, mid-September.

DWARF FRUIT TREES

Dwarf fruit trees are a very popular item for gardeners with a limited space. These trees grow about 8-12 feet tall at maturity and will use a correspondingly small space. Dwarf pears bear two years from planting; dwarf apples from two to four years. Our dwarf trees will be two years old, and 9/16 inch in caliper.

DWARF APPLES—Varieties available: McIntosh, Red Delicious, Greenings, Cortland, Yellow Delicious, Baldwin. Price—each \$2.00
DWARF PEARS—Varieties available: Clapp's Favorite, Bartlett, Seckel and Anjou. Price—each \$2.00
DWARF CHERRY—North Star, Meteor. Price—each \$1.75
DWARF PLUM—Stanley, blue. Price—each \$1.75
DWARF PEACH—Golden Jubilee, Elberta, Red Haven. Price—each \$1.75

APPLES — 2 YEARS — \$1.00 each

9/16 inch caliper — 5 to 6 feet tall

RED RASPBERRY PLANTS

Raspberries are one of the treats available to home gardeners and will bear handsome crops if a little care is given them. Here is a crop ideal for the part-time farmer which is overlooked by many growers. Very easy to freeze.

We offer strong, well grown plants, free of disease. Start a bed now so that you can enjoy raspberries throughout the summer. Once planted, a raspberry bed is good for from five to ten years, depending on the care given it.

LATHAM (Red)—The fine old standard mid-season berry which folks have liked so well. It bears well under most any condition and is good for commercial or home gardeners. Available in transplants only.

SEPTEMBER (Everbearing, Red)—This is one of the newer everbearing varieties of red raspberries which is reported to be very good. We have only transplants available. Bears in September the first year planted.

TRANSPLANTS

6 for 75c; 12 for \$1.50; 25 for \$3.00; 100 for \$10.00.

Not sold in lots of less than 6 of one variety.

PURPLE AND BLACK RASPBERRIES

SODUS (Purple)—This is the leading purple raspberry. The berries are medium purple in color and good in quality. The plants are very productive and vigorous. No. 1 grade only.

CUMBERLAND (Black)—This variety yields well under most any condition. It has a glossy black berry of excellent quality and bears in mid-summer. Black raspberries are gaining in popularity. They can be raised at less cost than the red varieties and stand on the vines a long time without becoming soft. No. 1 grade only.

PRICES—No. 1 Grade—All varieties: 6 for 65c; 12 for \$1.20; 25 for \$2.00; 50 for \$4.00; 100 for \$7.50; 1000 for \$65.00, not prepaid.

BLACKBERRIES

Blackberries grow best on fertile loam. The rows should be six feet apart with each plant approximately two feet apart in the row.

ALFRED—This is the sweetest of all blackberries. The berries are very large, and bear in large clusters. The plants are very sturdy.

Prices:

12 for \$1.00; 25 for \$2.00; 100 for \$7.00

GRAPE VINES

These are all No. 1 Grape Vines and should give you excellent results.

MOORE'S EARLY—Extra large early blue grape.

CONCORD (Blue)—The Standard blue grape.

PORTLAND (White)—Early, large and of good flavor.

CACO (Red)—Early, fine flavor with large bunches.

FREDONIA (Black)—Very early, excellent quality.

VAN BUREN (Black)—Best new grape. Very sweet. 1 yr. No. 1.

Price: 40c each; 3 for \$1.00; 10 or more at 30c each; 100 or more, 25c each

CURRENT BUSHES—Red Lake—each 50c

(No mail orders accepted for Currants)

BLUEBERRIES — SPRING AND FALL

Cultivated blueberries are hardy shrubs of rare beauty; they are doubly valuable because they are fruitful and ornamental throughout the entire year.

Every home garden, no matter how small, has room for at least a few of these blueberry plants. It takes only a few plants to produce all the berries that an ordinary size family will need. As a commercial proposition it is one of the most profitable fruits to grow. There is a big market for these delicious blueberries. They make good money in a very short time. You can begin picking the second or third year after planting. Plants last a very long time.

Cultivated blueberries grow in large clusters, plump, tender, and practically seedless. They will grow anywhere that strawberries will, doing their best on a moist, acid soil which is kept mulched all summer. For pollination, plant at least two varieties.

Our very low prices on large bearing plants will give you berries years before smaller plants. We advise buying blueberry plants on a size basis.

We recommend that you plant at least two varieties. Our plants are ready during the season so you may call and pick the plants up immediately.

VARIETIES AVAILABLE — FIVE OF THE BEST

EARLIBLUE—One of the newer and better varieties of cultivated blueberries. Early and productive.

BLUERAY—Another new and very productive variety—good for either commercial or home gardeners. Large, blue, sweet berries.

JERSEY—Large, light blueberries. The bush grows erect and is very productive.

COVILLE—A new late variety. Berries are firm, crisp, juicy; of excellent quality and flavor. Ripens to a beautiful blue color and last well on the bush.

BLUECROP—Ripens mid-season. Fruit is large, light blue in color and firm. It is sub-acid and well flavored; produces abundant crops.

HERBERT—A mid-season variety. Fruit is large, firm and is resistant to cracking. Bears large crops and ships well.

ASPARAGUS PLANTS

Home-grown asparagus is one of the easiest to grow and yet one of the most delicious treats available to the small gardener. Cut fresh in your own garden, it is unexcelled in flavor and quality. Start now to have a bed of your own.

Our plants, if heavily fertilized in your garden, will produce some asparagus for you the next spring. The second spring, you can cut it for about one month and after that, if you continue heavy fertilization, you can cut it up to the 1st of July each year. A bed, once started, will last as long as you take care of it.

Variety — Mary Washington

Heavy No. 1 Grade—25 for 75c; 50 for \$1.50; 100 for \$3.00; 500 for \$12.50; 1,000 for \$20.00. Packing and postage, add 20%.

ASPARAGUS CULTURE

Set asparagus in rich soil a foot apart in a furrow 6 inches deep. Cover 3 inches and tramp. In hoeing, work soil toward plants so that by mid-summer the ground is level. Do not cover 6 inches at first or plant will be smothered. Cut sparingly the second year, after that cut all shoots 6 or 8 inches high until about the middle of June, then let tops grow. Fertilize asparagus liberally, with stable or hen manure any time in summer or fall after cutting season is over.

FLOWER AND VEGETABLE PLANTS

We carry during the season a very large assortment of vegetable and annual flower plants. These are offered by the dozen or by the flat of 100 plants. Many of the better varieties are being shown for us in packs of 12 plants. These hold very well until you are ready to plant and there is a minimum of transplanting shock. Four of the largest growers in the area furnish plants to us regularly and that is why we can offer you this wide assortment.

SPECIALS

BURPEE BIG BOY HYBRID TOMATO PLANTS—packed in individual plant bands — dozen	\$1.50
flat of 40 plants	4.00

STRAWBERRY PLANTS

Strawberry Plants have been a specialty of the Holdridge Farm for many years. We have growing now on our own farm more than seven acres of strawberries. We are not only producers of strawberry plants but we also sell many thousands of quarts of berries yearly. We know that our plants, given proper care, will produce nice crops of berries for you.

Remember the benefits of our quality plants will be yours if you buy Connecticut grown plants from us.

Our plant stocks are:

1. All of virus free strains whenever that stock is available.
2. Absolutely free of red stele.
3. Treated for nematods. We do not feel this is a serious problem in Connecticut if locally grown plants are used.
4. Well fertilized throughout the year.
5. Available in the better varieties for New England.

Recommendations for Planting Strawberries

1. Plant very early in spring—March 20 to May 1—if possible. Never later than May 30.
2. Plant standard varieties. Our choice as follows: Catskill, Sparkle, Howard. Try other varieties in small quantities at first.
3. Plant in very good garden soil—never where turf has just been turned over.
4. Keep blossoms picked off of June bearing varieties the first season.
5. Keep as free of weeds as possible.
6. Fertilize very heavily the season the plant bed is growing. Do not fertilize just before fruiting.

EVERBEARING STRAWBERRIES

Strawberries of the everbearing varieties may be planted this spring and will start to bear fruit about the middle of July and will bear continually until cold weather arrives.

Everbearing varieties of strawberries do not make very many new plants and we recommend that all runners be kept picked off so that all the strength will go into the fruit. It is also recommended that some type of mulch be placed around each plant so that the berries will be clean.

Everbearing strawberries, planted this way, will not bear the great amounts of berries next June that the regular varieties do so we recommend that not more than one-third of your bed be of everbearing varieties.

Pick Your Own Strawberries

During the strawberry fruiting season, our fields are open at 8 A.M. daily to anyone who wishes to pick berries for themselves. Our price is 25c per quart. The field is closed to the public after a sufficient number of pickers have arrived in the field to harvest the day's crop. Our strawberry field is on our Stevens Farm, located on the Shewville Road about five miles from the Nursery and is not open either afternoons or evenings.

BASKETS

We expect to have a car of strawberry baskets and other type baskets on hand this spring. Baskets will be available at the following prices while our supply lasts:

Quart Baskets	per 100, \$2.00; per 1000, \$18.00
At farm or by express not prepaid—500 at 1000 rate.	
Pint Baskets—both oblong and square	per 100, \$2.00; per 1000, \$17.00
2-Quart Pansy Tills—packed 250 to a carton, per 100, \$4.00; per 1000, \$40.00	
4-Quart Tills—per 100	\$5.00

Also 4-quart, 8-quart and 16-quart Peach Baskets. Prices not available as this catalogue goes to press.

STRAWBERRY VARIETY DESCRIPTION

HOWARD NO. 17 (Premier)—This is the old reliable very early variety. It is a dependable, heavy yielder and has pointed, fairly light colored berries.

SPARKLE (Mid-season)—A dark red colored berry, excellent for eating and freezing. Very sweet.

CATSKILL (Mid-season to late)—A very large glossy berry on vigorous plants. Good yielder and fine plant-maker. Our best money maker on our own picking beds.

ROBINSON (Mid-season)—This variety has small plants but will give tremendous yields of large berries under proper conditions. Good commercial berry where plants are kept thinned and ground is very rich and moist.

EMPIRE (Early-Mid-season)—A new variety coming into popularity. It is slightly later than Howard but has very large "plum sized" berries.

VERMILLION—Has very glossy fruit—very attractive berries—good plant-maker.

ARMORE—An extra good late variety—very productive—good freezing berry.

SURECROP (Mid-season)—Produces bright red large berries with a nice green cap.

FAIRFAX—A good home berry. The sweetest of all varieties with real dark berries. Fairly good yields.

RED GLOW (Early Mid-season)—A vivid red glossy berry—reported as an excellent yielder.

STEMMASTER—An early berry with extra large size.

POCAHONTAS—This variety shows great promise. Extra large plants. Berries are large, light, firm and tart.

PRICE OF STRAWBERRY PLANTS LISTED ABOVE

25 for 75c — 50 for \$1.50 — 100 for \$3.00 — 300 to 700 @ \$2.50 per 100 — 1,000 for \$20.00 — 3,000 or more @ \$18.00 per 1,000.

For Prepaid Orders by Mail — Add 20% for Packing and Postage

SUPERFECTION—Everbearer—This is one of the standard varieties of ever-bearers and will give you a nice crop of good sized berries.

Price of **SUPERFECTION EVERBEARING PLANTS**—25 for \$2.00; 50 for \$2.00; 100 for \$4.00. For prepaid orders by mail add 20%.

RED RICH—Everbearers

This is probably the best of the everbearing varieties of strawberries. The berries are very large, glossy red and have a very nice flavor. Yields of berries from Red Rich are very good.

RED RICH—Prepaid or at the Nursery: 12 for \$2.95; 25 for \$5.00; 50 for \$8.50; 100 for \$15.00.

SONJANA — CLIMBING EVERBEARING STRAWBERRY—Something New. Grows to 4 or 5 feet tall. Good for years. Supply limited. Price: 3 for \$6.95, for potted plants.
